ULTIMATE COMFORT

## 12" BOOT FOR STRUCTURAL FIREFIGHTING

- + **Low-profile, reinforced pull-on straps** help get you in quickly, then stay out of your way.
- + **Waterproof** – fire retardant leather
- + **Nomex®** thread stitching
- + **Ankle cushion** protect ankles from knocks and dings
- + **Tricot Lined** for comfort
- + **Unique Dual-density rubber outsole**
  - The boots are extremely light weight
  - Provides the most flexible outsole
  - Provides longer wear time, with less fatigue
  - Increased shock absorbancy
  - Increased energy return (spring effect)
  - Superior slip resistance to normal outsoles
  - Increased shelf life
  - Better insulation properties against heat & cold
